Re: Five Acre Mine Permit - Harborlite Perlite Pit - Permit ID-S450044

RECEIVED

MAR 29 2013

DIV. OF OIL, GAS & MINING

Dear Ms. Heppler:

Broken Arrow/McFarland and Hullinger desires to formalize our Harborlite Pit mining permit at Five Acres. The original permit was based on the old pit immediately north of the Pony Express Highway and just east of the Faust railroad station. We have been working sporadically on the old pit, but would like to expand our operations, thus our request for a full five acre permit.

Our bonding company asked for a letter from Oil, Gas & Mining authorizing the five acre permit and stating the bonding requirement. It is my understanding, a bond of \$27,700 is required to cover five acres and the annual amount would be good for five years. Please arrange for such a letter and we will quickly finalize the arrangements for the bond. I signed a reclamation contract for the Perlite Pit during my recent visit with Penny Berry.

If you have any questions or comments, please call.

Yours very truly,

A handwritten signature in black ink, appearing to read "Sidney K. Hullinger".

Sidney K. Hullinger
